EDUCATION

Bachelor of Technology in Information Technology
St. Joseph's Institute of Technology - 8.71 CGPA

2022 - 2026

SKILLS

- **Frontend:** HTML, CSS, Java Script
- **Programming Languages:** Java, Python
- **UI/UX:** Figma, Wireframing, Prototyping, Design Systems, User Research, Usability Testing
- **Databases:** MySQL, MongoDB(Basics)
- **Tools & Frameworks:** Canva, Adobe Illustrator, GitHub, Vercel
- **Soft Skills:** Communication, Teamwork, Problem-Solving, Leadership

INTERNSHIPS

Frontend Development Intern , Rapdfly Private Limited

Dec 2025 - Mar 2026

- Worked on a full-stack e-commerce web application built using the MERN stack (MongoDB, Express.js, React, Node.js), with primary responsibility for frontend development , Developed responsive and reusable user interface components using HTML5, CSS3, and JavaScript.
- Integrated frontend modules with REST APIs, performed debugging, UI optimization, and responsiveness testing to enhance performance and user experience across devices.

UI/UX Designer , Aptitude Guru Hem

Mar 2025 - July 2025

- Designed responsive web interfaces and high-fidelity prototypes using Figma, focusing on usability, accessibility, and design consistency. Performed wireframing, user flow analysis, and component-based design to optimize navigation and interaction patterns.
- Collaborated with development teams to implement scalable UI systems, redesign key user flows, and improve onboarding experience through data-driven UX enhancements.

PROJECTS

College Chatbot with BERT and NLP

- Developed a role-based AI chatbot using BERT and Natural Language Processing for contextual query understanding and intelligent response generation for students, faculty, and administrators.
- Implemented secure authentication, role-based access control, and academic service modules including timetable retrieval, faculty directory, announcements, and FAQ automation.

Freelancing Website Development - Ramsi Construction

- Developed and deployed a responsive corporate website using modern frontend technologies with hosting on Vercel, custom domain configuration, and mobile-first design principles.
- Implemented SEO optimization, semantic HTML structuring, performance tuning, including project gallery, and client inquiry workflows to improve digital visibility and user engagement.

Shopping App Prototype

- Designed an interactive e-commerce application prototype using Figma with component-based UI architecture, responsive layouts, and high-fidelity prototyping. Created end-to-end user workflows including product browsing, search, cart management, etc.,.

CERTIFICATIONS

Cisco Networking Academy: Introduction to Cybersecurity || **Oracle:** Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate || **NPTEL:** Ethical Hacking (Elite) || **MongoDB:** MongoDB Data Modeling Path || **NPTEL:** Python for Data Science (Elite + Silver)
